

RAY ARDIKA RAIHAN

FULL-STACK WEB DEVELOPER | LARAVEL & NEXT.JS

South Tangerang, Indonesia | +62 813-4855-8894 | rayardika18@gmail.com
linkedin.com/in/ray-ardika-raihan

PROFESSIONAL SUMMARY

Full-stack developer experienced in delivering responsive Laravel and Next.js applications for operational users. Built authenticated multi-role workflows, administrative dashboards, REST APIs, QR-based user journeys, inventory systems, and payment integrations; maintained a deployed operational platform.

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, Blade, HTML/CSS, Tailwind CSS

Backend: PHP, Laravel, REST APIs, authentication, QR workflows, payment webhooks

Data & Delivery: MySQL/MariaDB, Git/GitHub, Vite, Hostinger, HTTPS, testing

RELEVANT EXPERIENCE & PROJECTS

Full-Stack Developer (Project-Based)

Lembaga Pemasyarakatan Kelas IIB Empat Lawang, South Sumatra | Jul 2026 - Present

- Developed and deployed a Laravel/MySQL operational web application supporting QR-based roll calls, location-assisted security checks, housing records, approvals, and reports.
- Developed responsive desktop/mobile interfaces for officers and administrators, connecting QR and GPS-assisted workflows to application data.
- Configured and maintained production hosting, domain, HTTPS, MySQL, SMTP, and scheduled jobs; supported post-launch improvements.

Full-Stack Developer (Project-Based)

Fotodarikamu | Aug 2026 - Present (in development)

- Developing an event-based digital camera platform with Next.js, React, TypeScript, and MySQL/MariaDB.
- Built user-facing event and QR-code guest camera flows plus an administration dashboard for account and event management.
- Integrated QRIS payment flows through Midtrans/DOKU and transaction-status webhooks.

Full-Stack Web Developer (Project-Based)

Kantong Jamu | Mar 2026 - Aug 2026

- Built a Laravel/MySQL production and inventory management application integrating production records, stock tracking, Bill of Materials, and distribution.
- Developed operational business logic for QC approval and activity-based payroll calculations; tested and refined application features.

EDUCATION

Universitas Bina Sarana Informatika | Bachelor of Computer Science (S.Kom), Information Technology | GPA: 3.86/4.00 | 2022-2026
